EDUCATION

KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY, DU, BHUBANESHWAR **Sept 2022- July 2026**

B.Tech in Computer Science and Engineering

- CGPA: 9.14

EXPERIENCE

A.P. Moller-Maersk, Pune

July 2025 - July 2026

Intern - Infrastructure Engineer

- Automated deployment workflows across 9,000+ endpoints using Python, PowerShell, and Ansible, improving operational efficiency in air-gapped maritime environments.
- Developed an offline patch deployment framework using WSUS and PowerShell, enabling reliable security patch distribution across 9000+ distributed vessel infrastructures.
- Built a Python + Streamlit analytics dashboard to visualize patch compliance, deployment progress, and endpoint health, providing actionable operational insights.
- Analyzed infrastructure and network configuration data to identify connectivity issues, perform root-cause analysis, and improve system reliability across 300+ vessel infrastructures.
- Collaborated with cross-functional teams to troubleshoot infrastructure incidents and maintain service availability using ServiceNow.

Intel® Unnati Industrial Training 2024, Remote

May 2024 - July 2024

- Developed a Flask-based machine learning application for interactive dataset analysis and predictive insights.

PROJECTS

DeepDev – AI Twin & Interactive Portfolio

June 2026 - July 2026

- Engineered an AI-powered portfolio assistant capable of answering questions about projects and technical experience using RAG, conversational AI, and semantic search.
- Python, LangGraph, LangChain, Flask, ChromaDB, vector embeddings, JavaScript, and Groq/OpenAI APIs

MRI Brain Tumor Detection & Segmentation using Attention U-Net

Nov 2024 - Jan 2025

- Developed a deep learning pipeline for brain tumor detection using CNNs and tumor segmentation using Attention U-Net on MRI scans.
- Python, TensorFlow/Keras, OpenCV, NumPy, Matplotlib.

STORY-MOOD-PLAYLIST-SUGGESTOR

Mar 2025 - May 2025

- Developed a Chrome extension that performs NLP-based sentiment analysis on webpages and recommends Spotify playlists via REST API integration.
- JavaScript, Python, Spotify Web API, OAuth 2.0 (PKCE), Chrome Extension APIs.

SKILLS

Languages: Python, SQL, PowerShell, Java, C

AI & Machine Learning: Generative AI, Agentic AI, Retrieval-Augmented Generation (RAG), LangGraph, LangChain, Prompt Engineering, NLP, TensorFlow/Keras, Scikit-learn, Hugging Face

Data Science & Visualization: Pandas, NumPy, OpenCV, Matplotlib, Streamlit, Power BI

Web Development: Flask, HTML, CSS, JavaScript

Infrastructure & Cloud: AWS, Azure, Linux, Windows Server, Ansible, WSUS, TCP/IP, DNS

Databases: PostgreSQL, SQL

Developer Tools: Git, GitHub, VS Code, ServiceNow, Jira

POSITIONS OF RESPONSIBILITY

Associate Coordinator: UiPath Student Community KIIT

Dec 2023 - Apr 2025

Anchor & Video Editing Lead : Kalliope- Official Anchoring Society KIIT

Jan 2023 - Sept 2025
